

# FSL 5 Table Base Assembly

## Parts List

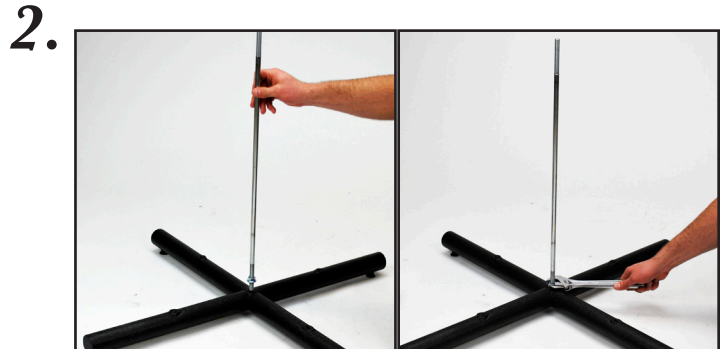

- (5) Rods
- (6) Nuts
- (5) Washers
- (5) Spider
- (4) 2" Columns
- (1) 3" Column
- (1) Base
- (4) Glides

## Tools List

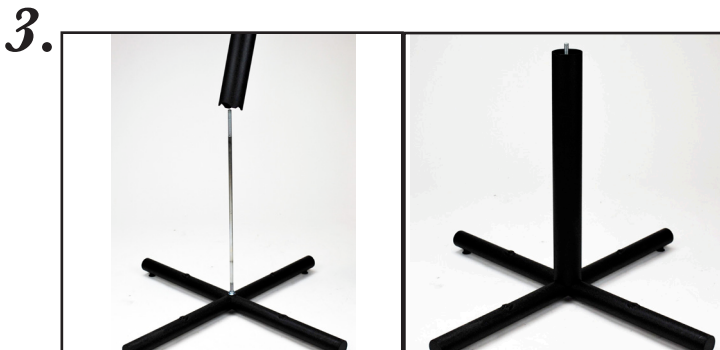

- (1) Socket Wrench
- (1) 7/16" Socket Head
- (1) Adjustable or 7/16" Wrench

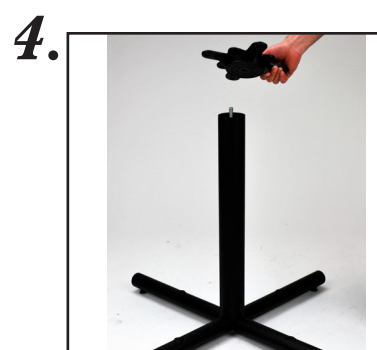

Hand screw glides into fittings on bottom of base .

Take rod without washer and screw into center base fitting. Then tighten nut down to base with wrench to secure rod.

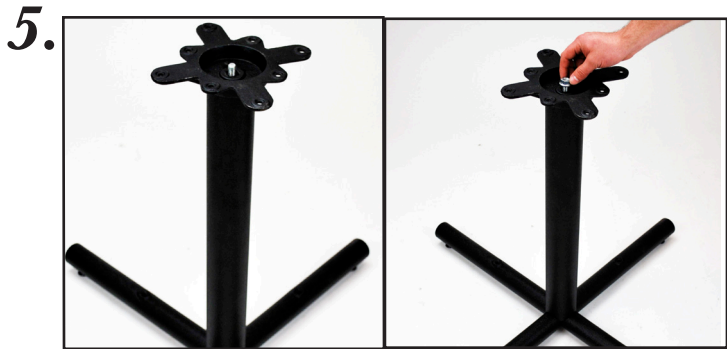

Slide 3" column down center rod.

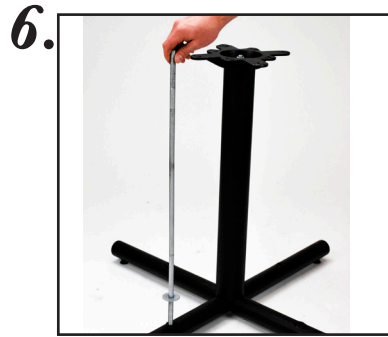

Place spider on top of column so that threaded end of rod is exposed.

Use socket wrench to tighten nut down end of rod to secure spider to center column.

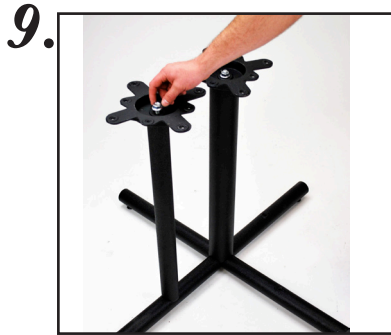

Next, take rod with serrated washer and screw into fitting on leg of base

Slide 2" column down rod

Place spider on top of column so that threaded end of rod is exposed.

Use socket wrench to tighten nut down end of rod to secure spider to outside column.

Repeat steps 6-9 for remaining 3 legs to complete product.
